LOCAL NEWS.

Mr. Percy Falkner, the well-known banker, has been assigned to a position at the Vancouver branch, and left this week to take up his duties there. His position at the local bank has been taken by Mr. Cleary, of Innisfree.

Officer Smith made a motor trip to Rocky Rapids over the week end.

Mr. and Mrs. Karl Strass, who have been touring Germany and Switzerland the past few months, are expected to arrive home in May.

Mr. Wm. Miskarow made a motor trip to Edmonton on Sunday.

Mr. Steve Rosinko, who had been wintering at Amyox, B. C., has returned to Stony and will engage in farming operations south of town.

Mr. Carl Hoffman has acquired a new Star car from Agent Speakman.

Stony Plain Town Council meets tonight.

Rudolf Hoffman has purchased a dandy Chrysler touring car from O. Hoffman.

Those who visited the movie show in Stony Monday night had their expectations realized in a very pleasant manner on viewing the great picture, "Gold Heels," a story of the race-track, a William Fox presentation.

Stony is very fortunate at the present time in having two motor express lines running daily to the City.

An excellent program has been provided by the members of the Walther League for their concert in Wudel's Hall tomorrow (Friday) evening, May 7.

Mr. Theo. Wince has purchased a Chevrolet.

Mr. J. A. Baron has purchased the 80-acre farm adjoining the town to the north, from the C.P. Co. This place had been occupied for some time by Mr. Tom Dale.

Greatly improved passenger train service west of Edmonton went into effect on the Canadian National Ry. on Sunday last, May 2. The former three-day-a-week train service was then increased to six days a week, the train leaving Edmonton at 9 p.m. daily except Sundays, and arriving at 8:20 a.m. daily except Tuesdays.

Although the date for the Provincial elections has not been definitely fixed, the political parties are beginning to arrange for campaign meetings. When auditing has finished, four meetings will be held by the Liberal party, at important points in the Stony Plain constituency, and each will be addressed by the Liberal candidate, Dr. Oatway, and others.

Hyett & Schmidt have installed a battery-charging outfit at their repair shop. Bring your batteries to a reliable place.

The Dominion Budget

While naturally there will be differences of opinion in regard to details of the Budget presented to Parliament by Hon. J. A. Robb, it will, taken as a whole, be acceptable to the people of Canada as constituting the first substantial measure of relief from the burden of taxation imposed upon by the war, something which a few years ago it seemed would not be enjoyed by the present generation.

The chief reduction in taxation is that resulting from the changes in the Income Tax. These changes are so arranged as to bring the greatest measure of relief to those in receipt of the smaller incomes. It is estimated that about one-third of all people formerly paying taxes on earned incomes will now be entirely exempt, while decided reductions are made in the case of those who will still have something to pay. The reduction in the case of those whose incomes are largely derived from investments and dividends will not be so material.

The celebration of next Dominion Day by a return to the old two-cent postage rate means a saving to each individual Canadian. It may not mean as much to the casual letter writer, but it is an important contribution to the more economical conduct of business. Furthermore, it is doubtful if it will mean any considerable reduction in postal revenues inasmuch as many business houses will again revert to the sealed letter at a two-cent postage instead of relying so largely on unsealed circular letters as in the case of the United States. This remains to be seen, because no less an authority than Henry Ford states that his firm can manufacture just as cheaply in Canada as in the United States, and that they have been getting higher prices in Canada simply because it was possible to get them by reason of tariff protection. The tariff reductions may mean a smaller profit per car to the manufacturer, but, according to Mr. Ford, cheaper cars means more cars sold, and the more cars sold, the larger the manufacturers' profits. Further, up to a certain point, the more cars manufactured, the lower the cost of manufacture per car.

Aside from the relief occasioned by the Budget reduction in taxation, people are interested in learning what national developments have taken place to make these reductions possible. Apparently there are two main factors. In the first place, there has been a notable improvement in business conditions throughout the Dominion, with a large increase in the trade of the country, increased industrial activity, and a lessening in unemployment. The bountiful crops of last year were largely instrumental in effecting this improvement. As a result, government revenues have been substantially increased, thus assisting to make tax reductions possible.

The second main factor is the decided betterment in the finances of the Canadian National Railways. A few years ago this system was national in name only. It consisted of a lot of separate railways, several of them more or less at loose ends, and the services being provided were a subject of sharp criticism and even ridicule. Now, under Sir Henry Thornton's management, the various lines have been co-ordinated and consolidated in a truly national system, and the services provided compare favorably with the best on the continent. The confidence and patronage of the public has been gained, the result being that whereas a few years ago the railway was not even earning its operating expenses, and the Dominion treasury was called upon for sixty to seventy million dollars a year to meet deficits and interest charges, last year there was a large surplus on operation, making it necessary for the Government to advance only a tenth of the sum previously required to meet interest charges.

The removal of this enormous drain on the treasury enabled the Government to reduce the burden of taxation on the people as a whole. A continuation and further expansion of business means larger direct revenues to the Government, but it also means increased traffic for the railways and a still greater betterment in C.N.R. finances. The figures for last March show that not only is the betterment being maintained, but increased net earnings for that month showing an increase over a year ago of over two and a half million dollars, or 166 per cent.

The sum and substance of the whole matter is that the people of Canada are working out their own salvation, and by hard work, the solution of their problems, and real determination are putting Canada on its feet.

Children Cry for

Fletcher's
CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; staying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Status Of Canadian Children

Have Very Best Chance Of A Square Deal

A square deal for every child, according to a contemporary, would help the world to go around.

But there was never a time in the world's history when, and there never was a country where, the child had a better chance of a square deal than the present time and our own country. The very fact that individual cases of this abuse of children attract so much attention is in itself significant. The present status of the child under our law is an evidence that there is such a thing as progress in civilization.—Woodstock Sentinel-Review.

Claims A New Record

St. Louis Post-Dispatch, Recently

Issued Eighty-Four Page Issue

With an eighty-four page issue the

St. Louis Post-Dispatch established

what it declared to be "a new high

world's record for a regular weekday

issue of any newspaper published in

any of the leading cities of the world."

Heavy retail advertising was the

reason for the unusual size. One depart-

ment store took sixteen pages. The

Post-Dispatch's previous record for a

regular weekday edition was seventy-

six pages last Oct. 23.

RHEUMATIC PAIN AND THIN BLOOD

Liniments Of No Avail—The Trouble Must Be Treated Through the Blood

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief and a little more trouble. The trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. This is why Dr. Williams' Pink Pills for the blood are so beneficial when taken for this trouble. They make new rich blood which expels the poisonous acid and the rheumatism disappears. There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of the rheumatoid trouble. One of these is Mr. Robt. A. Smith, Morris Point, N.S., who says:—"Some years ago I was attacked with rheumatism, which grew so bad that I could not walk and had to go to bed under the doctor's care. It is needless to say that I underwent a great deal of suffering. The doctor's medicine did not seem to reach the trouble, so when I was advised to try Dr. Williams' Pink Pills I did so, and after taking them for some weeks I was able to get out of bed and continued using the pills and was soon able to work and I have not been troubled with rheumatism since. In other words, I derived a great deal of benefit from these pills and I think them a wonderful remedy."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Sleepless Race Possible

People Could Gradually Eliminate Sleep Says Physician

We are told that too much sleep may be harmful, deadening the activities of the mind and body. A physician who has been studying the mystery of sleep, has gone so far as to advance the theory that it may be possible to develop a sleepless race. He declares that eventually we may eliminate sleep by scaling it down gradually and getting accustomed to go on without it. A way to do this, he suggests, is to reduce our sleep five minutes every two months. At the end of sixteen years, provided we start at eight hours a night, "the stupor of sleep would be banished if it could be."

Limit Earnings To \$20,000. No one in France is permitted by law to earn more than \$20,000 a year. Such is the surprising and perhaps unforeseen consequence of the latest and superfluous voted by parliament this year in an attempt to restore the nation's finances.

Many Unsafe Drivers. "Some men," says the Chicago Journal of Commerce, "never can be safe drivers because they are unable to react quickly and correctly to the unexpected event." Nevertheless, they are driving cars.—Detroit Free Press.

Use Minard's Liniment in the Stables. W. N. W. 1927

Let Tanlac restore your health

If your body is all fagged-out and run down, if you are losing weight steadily, lack appetite, have no strength or energy—why not let Tanlac help you back to health and strength?

So many millions have been benefited by the Tanlac treatment, so many thousands have written to testify to that effect that it's sheer folly not to make the test.

Tanlac, you know, is a great natural tonic and builder, a compound, after the famous Tanlac formula, of roots, barks and herbs. It purges the blood stream, revitalizes the digestive organs and enables the sickly body to regain its vanished weight.

You don't need to wait long to get results. Tanlac goes right to the seat of trouble. In a day or so you note a vast difference in your condition. You have more appetite, sleep better at night and your color begins to creep back into your washed-out cheeks.

Don't put off taking Tanlac another precious day. Stop into the nearest drug store and get a bottle of this world-famous tonic. That's the first, important step back to health and vigor. Every day's delay means unnecessary suffering, for Tanlac starts to clean out and jounce up the system right away. And

Mother Thanks Tanlac for Daughter's Health

"Kathleen (17) was nervous and depressed, easily exhausted and had no desire for food or conversation. The only medicine that helped her was Tanlac. It built her right up, and now she's building over with vigorous health and enjoys food and company like a child."

Mrs. C. Baker, Kingston, Ont.

by acting promptly you will avoid further loss of energy and weight due to your present run down condition. Take Tanlac Vegetable Pills for constipation.

First Woman Decorated With Legion Of Honor

Won Stripes of Second Lieutenant in Early Revolution

Recent bestowals on a goodly number of women of the coveted cross of the Legion of Honor have served to bring to light the first case of its kind. The first woman to be so decorated was Marie Schellinck, who might be well described as the Molly Pitcher of France. She volunteered in the armies of the Republic in the "year II" of the Revolutionary era, was wounded at the battle of Jemmapes, promoted sergeant and died in discharges before Arcola, wounded again at Austerlitz and at Jena. When, in 1808, she came up for decoration, she had conquered the stripes of a second lieutenant.

Girl Was Fast Worker

Packed 32,400 Blazuits in Nine and a Half Hours

Packing blazuits totalling 32,400 in 9½ hours, an English girl of 19, employed by the Shredded Wheat Company of Great Britain established a world's record. She had only been on the job a few weeks. The Marquis of Salisbury, who recently formally opened the company's new factory, congratulated the girl very warmly on her achievement.

Girl Was Fast Worker

An Oil for All Men.—The sailor, the soldier, the fisherman, the lumberman, the outdoor laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicine cabinets and be amongst those taken on a journey.

Some married men wouldn't object to playing second violin if the orchestra to which they belong gave only private performances.

Usefulness Of Printing Press

Work Has Extended to Production of Floor Rugs

The art of printing is not limited, it would seem, to the printing of paper. The usefulness of the printing press has now extended to the production of floor rugs. Many bronze and copper rolls are in service to print carpers, oilcloth, blankets and even silk materials.

Not a Sign of Backache Since

Saskatchewan Lady Took Dodd's Kidney Pills and Her Trouble of Three Years' Standing Disappeared

Mrs. R. Kolasa Was Unsuccessful with all Other Remedies

Willow Brook, Sask.—(Special).—"I have been troubled with backache for almost three years. I have tried all kinds of medicines but they didn't help me at all."

"I sent for some Dodd's Kidney Pills and they did me much good. I have not had a sign of backache since."

This statement comes from Mrs. R. Kolasa, a well known resident of this place. That Mrs. Kolasa's trouble was caused by the kidneys is evidenced by the immediate relief she got.

Weak kidneys are not confined to grown people only. They are too often found in children, sowing the seeds of future ill unless the kidneys are strengthened and put in condition to do their full work.

Dodd's Kidney Pills have been tried and found to be an excellent kidney remedy. They will do you good at once, and, better still, will prove that the good they do is lasting.

Mr. Briggs—I suppose you know I'm singing in the church choir now? Patient Friend—No, I didn't. Mr. Briggs—But surely your brother Tom told you I had joined the choir? Patient Friend—Oh, yes, he told me that.

Mr. Briggs—I suppose you know I'm singing in the church choir now? Patient Friend—No, I didn't. Mr. Briggs—But surely your brother Tom told you I had joined the choir? Patient Friend—Oh, yes, he told me that.

Mr. Briggs—I suppose you know I'm singing in the church choir now? Patient Friend—No, I didn't. Mr. Briggs—But surely your brother Tom told you I had joined the choir? Patient Friend—Oh, yes, he told me that.

Canadian Seed Grain Growers Now Reaping The Reward Of Applying Scientific Methods

Canadian seed grain growers are now reaping the reward that attends the application of scientific methods to industries of all kinds. Careful selection of parent stock and careful cultivation in high latitudes have resulted in the production of seed grain that is winning its way throughout the world because of its intrinsic merit and the results obtained when tested in the best of all schools, that of actual experiment. Proofs of the exceeding market for this wheat are generally and justifiably stated the home grower who earlier in the year filed a record order from the Argentine. The steamship *Malaita*, that sailed from New York for Buenos Aires on February 29 last, carried 2,000 bushels of podgreen seed Marquis wheat and 2,000 bushels of podgreen Banner oats shipped from the Canadian Seed Growers' Association plant at Moose Jaw, Saskatchewan, consigned to the Bunge and Born Grain Corporation to fill orders placed by Argentine farmers. The wheat in this consignment brought \$2.40 a bushel, the oats \$1 a bushel, f.o.b. New York City.

For two years the seed growers' association has been seeking export orders. It has sought by practical demonstration in twenty-five countries, to prove the superiority of Canadian seed grain. Its efforts have been backed up by the Canadian trade commissioners, and the Argentine order was the result of the successful co-operation. Besides their shipments to South America, the association sent a ton of registered alfalfa seed to Sweden, and arranged to ship a trainload of seed oats to Australia.

The Canadian farmers have been quick to recognize the greater profits to be won from high quality products. Their seed is used in increasing quantities in the United States. They have shown enterprise and gumption, qualities that make for success in farming as well as in other businesses.

For A Clean Crop

Dominion Seed Branch is Inspecting All Seed Houses to Maintain Standards

A general check up in all the phases of the seed trade is in progress over Western Canada, according to a statement made by the Dominion seed branch. The seed and feed inspectors are inspecting all seed houses, local dealers, merchants and farmers' supplies with the object of maintaining as well as possible the various grades and standards. This is particularly necessary with some farmers, who are not as familiar with the grades of clover and grasses as they ought to be and may be induced to buy and sow inferior and weak seed.

At work of this nature is being carried on at the same time. Farmers are particularly interested and willing to have their seed cleaned and graded by the inspectors to ensure a clean crop.

Importance Of Grain Traffic

Constituted 51.7 of Entire Tonnage Handled by C.P.R. in Western Canada

Of last year's western grain crop, the Canadian Pacific Railway handled 5,373,256 tons to the head of the lakes, and 733,665 tons to Vancouver. This movement constituted 51.7 of the entire tonnage of the company handled in that territory and, as it was all handled during a period extending over seven months, it is a remarkable tribute to the efficiency of the Canadian Pacific that few, if any, complaints were received regarding delay in shipment, lack of cars, etc.

Rich Gold Field

The famous Tully Bar, a mile west of Yale, B.C., in the Fraser River, from which millions were washed in the gold rush days, is again to be worked this time by Americans, operating drag lines. The company has secured leases on numerous other benches and bars which in the past bore rich gold values.

"Have you finished cleaning the benches yet?"

"Yes, madam—all except your rings and bracelets!"

W. M. U. 1937

Potato Cultivation In Alberta

Results of Tests Made in Planting of Value to the Grower

Early Northern has proven the best yields in variety trials of potatoes at the Lacombe, Alberta, Dominion experimental station, but being a pink variety, its commercial value is lessened. The station, therefore, recommends Early Ohio for the early market, and Goli Goli as the main crop.

Certified and registered seed of those varieties in commercial quantities are produced at the station.

The potatoes in the experiments were usually planted in drills thirty inches apart and the sets spaced 12 inches apart in the row. The sets were generally cut to average two ounces each. They were planted May 29 and dug October 9. Whole potatoes gave a larger yield per acre when all but one or two eyes were removed, but the sets with the number of eyes limited produced a better percentage of marketables. In any case, says the superintendent, Mr. F. H. Reed, B.S.A., in his annual report, where large tubers are used for seed they should not be planted closer than two feet apart in the row. The large sets gave an earlier maturing crop.

In a test of half-ounce, one, two and three-ounce sets of potatoes with one eye in each set, the larger sets produced the largest yield, but the smaller sets produced the best percentage of marketables. Results of tests at different distances apart, of equal size with varying numbers of eyes, sets from different parts of the potato, of one, two and four sets per hill, freshly cut sets, planted at different depths and killed versus level cultivation are also given in the report, which can be had free from the station or on application to the Publications Branch, Ottawa.

May Import Deer Meat

New Zealand—Anxious To Establish Trade With Britain

Frozen deer meat may be shipped from New Zealand to Great Britain and the United States, if the trade can be successfully established. This is the outcome of a campaign substantially to reduce the hundreds of thousands of deer which are proving such a menace to New Zealand forestalists and doing so much damage to forests.

The opponents of the scheme complain that the export will lead to deer being farmed in the same way as rabbits.

Opportunities In Canada

No Country Better For Young Men Says Roger Babson

Roger Babson, of the Babson statistical bureau, gives it as his opinion that "there is no country which offers better opportunities to young men than does Canada. It has definitely emerged from a four-year cycle of depression which followed the advance and inflation of the war and post-war years. All trend is unmistakably upward. All the basic business barometers clearly indicate fine weather."

Birds Travel At Night

Birds which make long distance migrations travel for the most part by night, for several reasons, and one of these is that they are free from natural enemies then. On the other hand they encounter many man-made dangers, one of which is the bright lights from automobiles and lighthouses that first attract and then blind them so that they fly into objects and because of their speed are killed by the impact.

Foreign Banker Comes to Prairies

Learning of the attractive opportunities in Canada for agriculturists, Count Jinn Hohenstein, a wealthy banker and landowner of Czechoslovakia, is now in the Dominion seeking a suitable location to take up farming. He will probably purchase a large tract of land in Saskatchewan or Alberta, and states that many of his countrymen are coming to Western Canada to settle on farms.

Manitoba Gold Mines

Province to Occupy Prominent Place in Mining Industry

Manitoba is on the verge of a mining development that will put it in the lead of the mining industry, according to U. C. Bateman, secretary of the Ontario Mining Association, who has concluded a survey of the Red Lake and Central Manitoba mining areas. From a geological standpoint, he states, Central Manitoba and Northern Ontario were rich in mineral wealth, and particularly gold bearing ore. What Manitoba needed was to have the mining industry put on a permanent basis.

Industrial British Columbia

In three months British Columbia's industrial payroll has increased \$20,000,000, or an average of \$10,000,000 a year. This is one striking fact brought out in statistics prepared by the provincial workmen's compensation board. The increase was from \$120,000,000 in 1923 to \$140,000,000 in 1925.

Settlers For Alberta

Colonization records in Alberta for the last ten years are being shattered this spring. The newcomers are being well looked after and are locating on practically ready-made farms.

Real Results Of Communism Are Shown In The Appalling Conditions In Unhappy Russia

Burbank the Wizard

The World Will Owe Much to His Patience and Skill

Luther Burbank belonged to the select company of great visionaries of science, but he had not the commercial sense which brought fortunes to Edison, Ford and Marconi. Three years ago, at the age of 74, Burbank had to sell his experimental farm because people had not appreciated his work.

Future generations will reap where Burbank sowed. He did not see the wealth of a nation increased by hundreds of millions, as Canadians have seen through the perfection of Marquis wheat by Dr. Charles E. Saunders. Burbank's experiments, countless though they were, did not often deal with great standard products like wheat. His spineless cactus brought a worthless weed of the desert into a useful forage plant, which should mean something to the hot southwest. The Burbank plan revolutionized plum growing in California, while the thornless blackberry deserves success as all horticulturists know to their discomfort.

A plant verberna with a pleasant odor, a petunia nearly six inches in diameter, a certain rhubarb with its stalk increased from the size of a lead pencil to that of a man's wrist—these are some of his achievements. Burbank imparted delightful odors to ill-smelling flowers; he developed a gladiolus with a flame-colored flower of enormous size; he originated the beautiful Shasta daisy; and he was on the way to a walnut with shell that could be broken with the fingers, when birds discovered the daisy morsels on the tree and destroyed his crop.

The world will owe much to Luther Burbank's inexhaustible patience and skill. He was in a class by himself in applying science to the development of horticulture in the New World. —Toronto Globe.

Homesteading Continues

Homestead Land in Western Canada Still Available as Shown by Entries

During the first two months of this year 63 homesteads were taken up in Manitoba; 317 in Saskatchewan, 226 in Alberta and 20 in British Columbia. Also in the same period seven soldier grants were applied for in Manitoba, 25 in Saskatchewan, 22 in Alberta, and two in British Columbia, the total representing 110,983 acres. During the same period last year homesteads and soldier grants taken up represented 82,520 acres. Homesteading continues to be heaviest in the Prairie Provinces, Moose Jaw and Edmonton districts.

In the United States there are about 2,000,000 persons ill all the time, and doctors say 42 per cent of this illness is preventable.

Mrs. Alice Tweddle, a great traveller and impartial observer, has published the record of her journey to China via Russia, an official answer to the Soviet-inspired report of the British Trade Union delegation, which recently visited Russia.

This letter gives a detailed account from Bolshevik sources (which are always quoted and mentioned) of the ghastly condition of that miserable country today, showing the real results of Communism. The authors of the exposure are Russians of the highest reputation, experts in their various departments, with M. Fedoroff, a former Russian minister, at their head.

Mrs. Tweddle gives her impression of Russia as she saw it in May of last year, which is the time of the delegates' visit, and certainly it would be impossible to pen a more terrible indictment. "One in every four or five persons out of the two millions in Moscow was in rags, starving, homeless, with terror in his eyes—a beggar. Children begged outside the theatre doors for food, long into the night—little homeless hungry children."

"Russia today is the most poverty-stricken, miserable, undisciplined country in the world. Terror is on every face and the result of human palpable. Our poorest British navy is richer and has more freedom than his so-called 'comrades' in Russia."

Mrs. Alice Tweddle says that Russia is a veritable grave of hopes. It is more—it is hell let loose, a madhouse, a place where the vilest criminals are in power and where murderers, thieves and torturers have an upper hand. If the Russians were not half Asiatic in their failings and capacity for suffering, they would have stamped out this horror long since, but now they have become completely spiritless through misery and lack of food, and they have not the strength or will to do anything but wait for death.

C.N.R. Forage Cars

Conclude Good Tour

Six Weeks' Tour is Made Over C.N.R. Lines in Manitoba

During a six weeks' tour of Canadian National lines in Manitoba just concluded, the government forage crop and poultry cars visited forty points, attracting a total attendance of 5,329, with an average attendance of 133 persons. Six hundred sales for a total of \$2,500 were made during the tour and the following list gives an idea of the sort of forage crops Manitoba farmers are planting this year: Sweet clover, 11,400 lbs.; bromus, 3,200 lbs.; timothy, 2,000 lbs.; alfalfa, 1,400 lbs.; meadow fescue, 900 lbs.; alsike and red clover, 705 lbs.; western ryegrass, 700 lbs.; rape, 275 lbs.; mangelworts, 43 lbs.; turnips, 10 lbs.; corn, 82 bushels; and field peas, 2 bushels. The cars were operated by the provincial department of agriculture in conjunction with the agricultural college and the Canadian National Railway.

Trade With Japan

Volume Increased By More Than Three Million Dollars in 1925

Volume of trade between Canada and Japan increased more than \$22,000,000 during 1925, setting a new record for foreign trade between the Orient and Canada, according to the annual report published by the Japanese consulate at Vancouver. Total volume of trade was \$32,125,000, of which \$25,162,378 was in exports from Canada and \$7,962,622 in imports from Japan. The increase in exports alone was nearly \$2,000,000 and in imports the increase was more than \$1,000,000.

Will Not Support New Highway

Alberta's efforts to secure the completion of another highway through the Rocky Mountains this year by way of the Yellowhead Pass will not be supported by the British Columbia Government. This was made clear by Hon. W. H. Sutherland, minister of public works. "We have not got the money to go in a scheme of that sort," Hon. Mr. Sutherland said.

"How do you get along with the boys?"

"Fine now. He's in Europe."

British Schoolboys Make Fine Farmers

Above are a group of British boys who are being settled on farms in Canada by the British Immigration and Colonization Association. They arrived recently at Saint John, N.B., on the Canadian Pacific line, Montreal, and soon after left for Manitoba, where they were received by officers of the Association.

The British school boys pick up farm routine quickly and perform his duties efficiently. This has been proved by the large demand received by the British Immigration and Colonization Association from Canadian farmers for more British boys. The group shown above have almost all been placed and as many more applications were received for boys. Other groups are being arranged for.

WORLD HAPPENINGS BRIEFLY TOLD

King George has become a patron of the rebuilding fund for the Shakespeare Memorial Theatre at Stratford-on-Avon, recently destroyed by fire.

Emile H. Shartel, Egyptian engineer, is in Canada from Cairo to help establish direct trade link between the Dominion and the near east.

The agreement effected in 1923 with Canada, covering flight of aircraft between that country and the United States has been extended until April 30, 1927.

Speaker Lemieux in the House of Commons announced that a bust of Lord Durham had been received by the government as a gift from Mr. St. Louis Strachey, of London, England.

The total catch of sea fish on both coasts of the Dominion during the months of March was 18,274,700 pounds valued at \$999,781. It has enhanced value of \$57,233 over the month of March, 1925.

"Moral turpitude" is removed from the United States Immigration Act, as far as deportation is concerned, under the terms of the new deportation bill reported by the house committee on immigration.

Stomach Cramps Yield to "Nerviline"

When doubled up at midnight with cramps you don't feel like experimenting: what you want is something to remove the cramp. Nothing acts so effectively as Nerviline. Take twenty drops in a little sweetened water, and quick as wink the cramp is gone. Nerviline is about five times as strong as most medicines, and because so strong, only a small dose is required to give instant effect. For stomach, gas, fermentation, cramps, etc., Nerviline should be kept in every home. For sure protection, get "Nerviline" today. 35c at dealers.

Grain For Italy

The largest shipment of grain yet made from the grain elevator at Halifax and the first ever to be made from that port to Italy, left recently on the steamer Afghanistan, which carried 305,000 bushels for an Italian port.

The Care of Her Baby Weighs on the Energies Of the Mother

The Show Studio

Hamilton, Ont.—"After one of my children came, my health was very poor. My nerves were so bad I could not sleep—would walk the floor nearly all night long. I was so weak I could not do my work. I suffered from backaches and pains in my side. I was just a physical and nervous wreck, but after I took a few bottles of Dr. Pierce's Favorite Prescription my nerves were completely restored. I grew strong and well and was able to do my housework. I never had any more trouble—was just fine."—Mrs. Wilfred Bendall, 123 Bay St. North.

Just ask your nearest druggist for this Prescription of Dr. Pierce's in tablet or liquid form.

Write Dr. Pierce, President Invalids' Hotel, Buffalo, N. Y., if you want free medical advice.

Huge Tower For Leipzig

One Being Erected Twice as High as Eiffel Tower

The city of Leipzig, Germany, is erecting a steel tower, 1,950 feet high, about twice as high as the Eiffel Tower in Paris, which is to serve as a generator of electric power and as a wireless station. The cost of the tower will be about one million dollars. It is said that Berlin is considering the question of building a similar tower.

BEAUTIFY IT WITH "DIAMOND DYES"

Just Dip To Tint or Boil to Dy

Each 15-cent package contains directions to simply any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, drapery, coverings, hangings, everything!

Buy Diamond Dyes—no other kind—tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

The New Cos'ume Blouse

Fashioned of a lovely printed and bordered material is this over-blouse of Russian influence that is almost a dress, so long in length is it. Fine tucks define the hips, and create just enough fullness to give the new blouse effect at the sides. Note the smart arrangement of the tie collar at neck, and front opening back to form a V. A sleeve extension is joined to the kimono shoulders and gathered into bands at the wrists. No. 1246 is in sizes 34, 36, 38, 40 and 42 inches bust. Price 36c. Bust requires 2 1/2 yards 40-inch all plain material, or 2 1/2 yards 54-inch bordered material, as illustrated. Price 39c.

The secret of distinctive dress lies in good taste rather than in lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

ON THE AIR

What is Going In the World of Radio

While listening in at Battle Creek, Mich., Paul Stevens, 30, heard over the radio that his uncle had left him a fortune.

Since the radio broadcasting stations quit announcing the names of persons who wrote or telegraphed to them, the "fan mail" of broadcasters has dropped off heavily at Chicago.

The Kansas-escaping motorist whose view of wooded dells is obscured by billboards may find a fellow sufferer in the advertiser who baset by radio advertising, whenever he turns the dial of his receiving set.

Proposals to broadcast the House of Commons debates have been likened to soap-box oratory by many Conservative members of the British Parliament who have put themselves on record as being against the introduction of the microphone.

An interesting record in long distance radio reception on a moving train has been established by the Continental Limited, the transcontinental express of the Canadian National Railways, in picking up and holding for 30 minutes a broadcast from Vera Cruz, Mexico.

Twelve radio "mikes" have been installed in the freight yards of the Illinois Central Railroad, Chicago, and the system, with other improvements, has reduced the switching force from 288 men to 27 men. The "mikes" are connected to a universal loud speaker circuit, so that orders and responses of each of the ten switch-towermen, the train dispatcher, and the scale-master are audible to all twelve.

Miller's Worm Powders do not need the after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels unseizable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

Japan Surprises Naval World

Japan has sprung a surprise on the naval world. She is building four cruisers, which, although smaller and cheaper than the 10,000-ton Washington treaty ships, are formidable fighting units, according to Hector Bywater, a leading naval critic.

An Oil that is Prized Everywhere

Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Will Drill For Oil

It is understood that a British syndicate will drill for oil in the far north on the shores of Lesser Slave Lake. Lady Rothery is mentioned as the principal financial backer.

Mother can easily know when their children are troubled with worms, and they lose no time in applying reliable remedy—Mother's Worm Expeller.

Customer: Charge it, please.

Clerk: We do a strictly cash and carry business, madam.

Customer: Sure, and I'm asking you to carry me for a couple of days.

Self-Poisoning Takes Huge Toll

Many Fail in Life Through Sheer Neglect of Fundamental Rule of Health

Thousands of men and women are to-day victims of their own neglect. Grouchy, listless, quickly tiring, suffering from headaches and biliousness, they spend enormous sums in medicines without avail. They would give much to regain their old vitality.

Can it be done? Yes! How? Simply by recognizing the importance of the fundamental rule of health—the proper elimination of the lower contents. Poisons that are allowed to remain in the system quickly lower the stamina, weaken the nerves and thus pave the way to ill-health. Stop this self-poisoning by taking the scientific lubricant that completes the work of Nature's lubricant when, through modern living conditions, the natural supply fails.

Oil can be taken indefinitely without injury to the system. Try *Wald's* today. Ask for it at your nearest drug store, but remember there is only one *Wald's*. With the *Wald's* in red on the label and package.

- 45—Seventh note of scale (mus.).

SUNDAY SCHOOL LESSON

MAY 9

ABRAM AND THE KINGS

Golden Text: In all these things we are more than conquerors through Him that loved us. Romans 8:37.

Lesson: Genesis 14:1-24.

Devotional Reading: Isaiah 61:1-6.

Explanations and Comments

Four Kings War With Five in the Vale of Siddim, verses 1-12.—Read the Historical Background. For twelve years five kings, or chieftains, in the region around the Dead Sea (Vale of Siddim) had been vassals of Chedorlaomer, King of Elam. In the thirteenth year they rebelled and the year following Chedorlaomer undertook a punitive expedition which included the region from Syria to the Gulf of Arabia. With him were associated three other kings, Amraphel, King of Shinar or Babylonia (the is today called Mesopotamia), and the king of Elam. With him were associated three other kings, Amraphel, King of Shinar or Babylonia (the is today called Mesopotamia), and the king of Elam. With him were associated three other kings, Amraphel, King of Shinar or Babylonia (the is today called Mesopotamia), and the king of Elam.

The invaders attacked and conquered many tribes on their way to the Dead Sea, where they were withstood by the five Canaanite kings of that section, the kings of Sodom, Gomorrah, Admah, Zeboim and Bela. A fierce battle was fought, and the invaders were victorious. The region abounded in bitumen (asphalt) pits (bitumen is found on the surface of the Dead Sea) and in the armies of the kings of Sodom and Gomorrah were equipped. The text says that the kings of Sodom and Gomorrah felt their, but it seems legitimate to understand that it was their armies, not they, for the King of Sodom appears again in verses seventeen and twenty-one. However, it may have been the new king who welcomed Abram, verse seventeen.

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. I. M. Parks, Concession, Ont., writes: "I had heart and nerve trouble, and became so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me."

I Saw

This preparation has been on the market for over 20 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

AMENDMENT TO GRAIN ACT MAY BE PUT THROUGH

Ottawa.—After considerable negotiations, a tentative agreement has been reached between the government and the Progressive group on the proposed amendment to the Canada Grain Act.

The government will not make these amendments a government measure, but will undertake to provide facilities for their consideration by the House of Commons. Furthermore, the government will give the amendment independent support and, among Progressives, there is no doubt but that the amendments will be approved in the lower house.

The most controversial provision in the amendments is one that would compel country elevators to guarantee to farmers grade and weight on grain no matter to what terminal elevator it is shipped. Heretofore country elevators have only given this guarantee when the farmer permitted shipment to the terminal elevator selected by the country elevator. However, the growth of the pool has placed hundreds of farmers in a position where they must ship to the pool terminal elevators. Under these circumstances country elevators declined to guarantee grade and weight.

This amendment will be opposed vigorously by the grain trade. As business in the house is new, these amendments will not be reached until after the budget debate is concluded, which will be a week or two at least.

For Closer Trade Relations

Canadian Delegation Attends Trade Convention in Charleston, S.C. Charleston, S.C.—The National Foreign Trade Council opened its fourteenth annual session here, and after receiving a message from President Coolidge, listened to inspirational speeches by the first delegates Canada has ever sent to the convention.

Flanked by Union Jacks and cheered by the United States delegates, 25 Canadians, led by C. P. W. Schwenger, president of the Victoria, B.C., Chamber of Commerce, presented an appeal for closer trade relations between the two countries.

The "unity and steadfastness" of the English-speaking people, Mr. Schwenger said, and very little else, now "stand between us and a world of chaos." Recalling the unguarded border-line between Canada and this country, he said it was a splendid lesson to the world.

South Africa's Defence Force

Changes Proposed By Minister Of Defence and Labor

Cape Town, South Africa.—Proposed changes in the defence of the Union of South Africa aiming at the creation of an air force capable of striking any enemy force anywhere within the Union was outlined by Colonel F. H. P. Creswell, minister of defence and labor, in the House of Assembly.

Colonel Creswell stated that furthermore when the government's military plans were carried out there would be the certainty of mobilizing 10,000 men and concentrating them within from 72 to 96 hours within a measurable distance of an enemy, and there would be an additional force that would bring the total up to 25,000 men, properly equipped and able to take the field.

Government Lakes Elevators

Winnipeg.—A group of fifteen grain elevators, owned by the province of Manitoba, have been sold to J. M. Wilzer, a grain operator of Winnipeg. It was announced. The sale price was given as \$30,000. The Manitoba Government disposed of 16 of its elevators recently and 41 are still under its control.

Liquor Cripples Mail Delivery

Port Smith, N.W.T.—Post office officials report that mailing of liquor to Port Smith last winter crippled the delivery of the ordinary mail. Only a stipulated weight could be conveyed on each trip, and this was taken up by liquor parcels.

W. N. U. 1657

Appointed Arbitrator

MR. JUSTICE W. F. A. TURGEON, of the Saskatchewan Court of Appeal, who has been appointed third arbitrator in connection with the sale of the Saskatchewan Wheat Pool.

Oil Company Charters

Will Be Granted Charters Only Upon Basis of Stock

Ottawa.—Oil and mining companies from Alberta applying for Dominion charters will be granted, incorporation only upon the basis of their stock issue having no stated par value, according to an announcement made in the house by Hon. Ernest Lapointe, secretary of state, answering a question by A. U. G. Dury, Conservative, Edmonton East.

Mr. Lapointe stated some of the charters already had been granted and would be sent the companies. The regulation regarding the value of stock would not apply to these companies.

Shortage Of Farm Help

Demand in Alberta For Men Experienced in Farm Work

Edmonton.—More vacant farm jobs waiting for men to fill them than there were a year ago, is the report from the government employment service. At the moment, says Commissioner Walter Smitlen, there is no means in sight for supplying this demand.

The shortage is in experienced men who know how western farming is done, and newly-arrived immigrants lacking in experience are not in demand. Particularly in the south country, the call is for men western-trained and ready to go to work without being shown.

Britain Will Not Interfere

London.—The British Government will take no action to prevent the disposal of historic manuscripts, artworks, and historic buildings to America or other countries. Chancellor of the Exchequer Churchill said in reply to a question in the House of Commons.

Reach Agreement Over Debt

Paris.—A provisional Franco-British debt agreement has been reached, according to Le Temps, by which France will pay £2,000,000 September 30, 1925, and another £2,000,000 on March 31, 1927.

EAST WILL TRY TO SECURE COAL FROM ALBERTA

Toronto.—Representatives of some 25 Ontario municipalities assembled with Premier Howard Ferguson, of Ontario, and Premier J. E. Brownlee, of Alberta, here, unanimously adopted a resolution calling for the appointment of a special committee to make an effort to secure a supply of Alberta coal for Ontario. Urging that the opportunity to develop a national resource presented itself, the delegates asserted that the cause justified governmental subsidy.

That the purchase of Alberta instead of American coal by the province would mean the retention of more than \$150,000,000 a year in circulation in Canada was the opinion expressed by Mayor Thomas Foster, of Toronto, in welcoming the delegates. The city of Toronto, he had succeeded in securing a sample of the western fuel during the past winter, and had found it entirely satisfactory. "We have an inexhaustible supply of coal and sufficient to supply the whole Dominion of Canada for centuries to come," declared Premier Brownlee. "We have an legislation before the Dominion railway board for a special out-of-pocket rate which would not be fair if we had it all the time, but if we can establish to bring coal when the grain is not moving and there is rolling stock available it will be a relief for all and a further development."

Provinces Can Fix Minimum Wage

Parliament Only Has Jurisdiction Over Salaries Paid to Government Employees

Ottawa.—W. Stuart Edwards, deputy minister of justice, when appearing before a committee on industrial and international relations of the House of Commons, declared that, generally speaking, the various provinces of the Dominion had the exclusive jurisdiction to legislate in respect to the question of minimum wages. "The Parliament of Canada," Mr. Edwards, however continued, "has the exclusive legislative jurisdiction to regulate and fix the rate of wages to be paid to the servants or employees of the Dominion Government, where they are employed."

Channel Islands Not Exempt

English Death Duties On Property There Can Be Collected

London.—Judging by the answer given by Winston Churchill, chancellor of the exchequer, to a question in the House of Commons, the late Sir Robert Houston, ex-M.P., Liverpool shipowner, undertook a fruitless task if, as suspected, he made the Channel Islands his place of residence with a view to avoiding the imposition of duties on his estate after his death. Sir Robert's possessions were stated to be valued at about £7,000,000. Mr. Churchill stated that he considered there was a good prospect of securing death duties on the whole of Sir Robert's estate, including the portion of it in the Channel Islands.

Mosul Question May Soon Be Settled

Concessions Offered By Britain More Important Than Territory Constantinople.—Despite diminished optimism among the people generally, Turkish official circles continue confident that the Mosul negotiations will end in an amicable settlement with Britain.

All hope that Mosul will be included in Turkish territory has been abandoned; but the British have promised other concessions which the Turkish leaders consider even more important from a practical, if a less sentimental viewpoint.

These include a boundary of greater strategic importance than provided for in the Geneva award and the security pact, in which the Iraq Government, backed by Great Britain, undertakes to guarantee Turkey freedom from further menace of Kurdish revolutionary hands and other efforts on the part of the inhabitants of Mesopotamia to create trouble for the Turks across the frontier.

Heads Canadian Press

J. H. Woods, Calgary Herald, is Re-elected President of Organization Toronto.—J. H. Woods, Calgary Herald, was re-elected president of the Canadian Press at its annual meeting held here, other officers being as follows: Honorary president, E. H. Macklin, Manitoba Free Press; first vice-president, John Scott, Montreal Gazette, and second vice-president, F. B. Ellis, Saint John Globe. Other directors are: G. Frost Pearson, Halifax Chronicle; Henri Gagnon, Quebec City Soleil; E. J. Archibald, Montreal Star; E. Norman Smith, Ottawa Journal; W. J. Wilkinson, Toronto Mail and Empire; W. B. Preston, Brantford Expositor; A. R. Ford, London Free Press; W. J. Taylor, Woodstock Sentinel-Review; M. E. Nichols, Winnipeg Tribune; Burford Hooks, Regina Leader; and Charles Swayne, Victoria Colonist. J. F. B. Livesey is general manager and secretary.

Rumor Is Denied

Britain Was Not Asked to Conduct Wireless Telephone Experiments With Canada

London.—In reply to a question in the House of Commons, Sir William Mitchell Thomson, postmaster-general, denied that Australia and Canada had asked the post office to conduct experiments in wireless telephone communication and that the post office had refused. He said it was impossible that the request could have been made as there were no stations in Australia or Canada suitable for conducting the experiments.

To Follow Paths of Peace

Berlin.—Chancellor Luther, speaking to industrial and commercial representatives, said that Germany was determined to follow the paths of peace and that the Russo-German treaty represented progress in this regard.

Manufacturers to Meet

Toronto.—The 56th annual meeting of the Canadian Manufacturers' Association will be held in Toronto, June 8, 9, and 10.

LIVELY DEFENCE OF GOVERNMENT AND THE BUDGET

Ottawa.—Hon. Dr. King, minister of public works, entered the budget debate with a speech in which he warmly defended the government against charges of having injured Canadian industry. He cited the manufacture of agricultural implements. During the last five years, said Dr. King, imports of agricultural implements had decreased, while exports of Canadian agricultural implements had increased. Dr. King did not think that members need be much disturbed because certain automobile manufacturers had made arrangements to close their plants the day the budget was brought down. The real purpose of the closing down—Dr. King proceeded—was to make a demonstration, and an unfair demonstration against the government.

Col. James Arthur, Conservative, of Parry Sound, moved the government to an automobile with a slipping clutch. He advocated a policy of advertising to attract tourist trade to Canada.

Debate was continued by S. G. Folin, Liberal, of Westsaskatoon, and by Hon. Dr. Edwards, Conservative, of Frontenac-Addington. Dr. Edwards described the minister of labor as a brave man to enter a "cabinet of derelicts." He spoke of Unions Grains Growers, Limited, as the "most conscientious, cold-blooded, profiteering monopoly" in the country.

Women Honored For Bravery

Two Rewarded by National Lifeboat Institution of England

London.—Two women, representing 25 others who launched a lifeboat and braved the terrors of a wild winter night, have been honored by the Royal National Lifeboat Institution. Miss N. Stephenson, daughter of the coxswain of the lifeboat at Boulmer, Northumberland, and Mrs. B. Stanton, wife of the second coxswain, received from Lord Foster the thanks of the committee of the institution, inscribed in vellum. The tribute was for their gallantry on the night of December 20, when they, with other women, dragged a lifeboat a mile and a quarter in the face of a blizzard and then stood by to launch her.

In March, 1924, the women also distinguished themselves, on that occasion being up to their waists in water in rescuing a shipwrecked crew.

Another Gold Shipment

Further Two Million Received in Canada From U.S.A.

New York.—The recent gold movement to Canada has been further extended with a shipment of \$2,000,000 by the Canadian Bank of Commerce, a total of nearly \$15,000,000 since the rate of Canadian exchange to 11-64 of one per cent. premium.

Continuance of the premium rate is expected in Wall Street to attract to Canada much of the \$55,000,000 in gold that came to the United States early this year.

Revolt During Peace Parley

Riflemen Fire on French Soldiers and Several Killed

Oudjda, French Morocco.—While French and Spanish delegates were discussing disarmament and other terms with the Rifians to bring peace to Morocco, the tribe led by Beni Meslata, who has been accepting French rule, suddenly revolted and opened an offensive on the French.

Several French soldiers were killed and wounded and quiet was only restored after the French had opened fire with artillery.

Trade With the Orient

Vancouver.—That the recent improvement in Oriental trade is in no way imaginary is proved by the heavy cargoes carried by the last few liners sailing for Japan and China from the port of Vancouver. In fact the recent partial recovery in the volume of business being done with China is viewed by local merchants as a sure sign that the country is coming back to normal.

Here are Twenty-Nine Reasons Why Japanese Was Voted Most Beautiful Lady

During a contest held on board the Canadian Pacific liner Empress of Scotland, making the world cruise, to decide on the most beautiful trees, mountains, views, harbors, countries, streets and human beings, the virtually unanimous verdict on the final question was that the Japanese lady was the most beautiful and the most charming. Here are twenty-nine arguments in support of the opinion of the Empress of Scotland's passengers. They are the geisha girls, dainty singing and dancing entertainers of Japan, who performed at the Shokokuwan Theatre, Nagoya, for the travellers during their visit to that port on the 1925-26 World Cruise.

Here and There

Lord and Lady Alibony have left
Canada, on board the Canadian Pa-
cific liner "Montrose," for home.
The distinguished general was re-
ceived enthusiastically in every city
throughout his tour of the Dominion.
He delivered addresses showing the
importance of the capture of Pale-
stine to the Allies in the Great War.

V. C. Vickers, managing director
of Messrs. Vickers Ltd., London,
England, who arrived in Canada re-
cently on board the Canadian Pacific
liner "Empress of Canada," reported
that the shipbuilding industry both
in China and Japan was in a
healthier condition than for many
years past, with shipbuilders favor-
ing the motor ship.

Travelling right across the Do-
minion, exclusively on Canadian Pa-
cific lines and in the palatial special
car "Lech Lomond," Her Grace the
Duchess of Atholl, whose family seat
is at Banff, Scotland, will make
acquaintance for the first time in her
life with the world famous resort in
the Canadian Rockies, which took
its name from her Scottish home.

A. Hutton, general superintendent
of transportation for the Canadian
Pacific Railway, has announced the
intention of the company to raise the
embargo against the loading of
grain to Port William and Port
Arthur and the milling companies
and elevators at Winnipeg. This is
due to the anticipation of the open-
ing of navigation on the Great Lakes
about April 20.

The total yield of wheat in Canada
for 1925, as finally estimated by
the Dominion Bureau of Statistics,
is 416,849,700 bushels, the second
largest on record, having been ex-
ceeded only by the 1923 crop. The
value of this crop is estimated at
\$465,116,200, or over \$53 per capita
of Canadian population. The aver-
age wheat yield was 19.2 bushels per
acre.

A general survey of reports by
the Canadian Pacific Railway on
agricultural conditions throughout
the West shows that farmers are
pleased with present conditions and
speak optimistically on the season's
outlook. Sufficient moisture for
spring crops seems to be assured.
Livestock wintered well. Adequate
supplies of seed are available and
no shortage of labor is expected.

A special C. P. R. train carrying
438 settlers from the S.S. "Mont-
calm" reached Winnipeg recently.
Among the passengers were thirty-
one British families who came under
the 3,000 family settlement scheme.
There was one party of 10 German-
speaking Catholics, and the Salva-
tion Army, under Captain Sharp,
brought out a party of twenty young
lads going to British Columbia.

It has been announced by the
passenger department of the C. P. R.
that Winnipeg negotiations have
been complete with the Central Can-
ada Air Lines Limited, for an air
service between Kenora and the new
gold fields at Long Lake and Red
Lake. A regular daily service is to
be inaugurated about May 24 in con-
nection with the C.P.R. from Kenora
and during summer services will
be run between Kenora and Duluth.

The recent fire at the Banff
Springs Hotel, which resulted in the
destruction of the north wing with
about seventy rooms, will have little
effect on the coming tourist season.
During the past winter the company
has built an annex with 160 rooms
with baths and, with the central
stone tower and the south wing of
the old building that were saved,
there will be a total of 313 rooms
available by July 1, or more than
were in use last year.

Save The Forests! Everyone Loses If They Burn!

1—Tree's bark is the raw material for one of Canada's greatest industries. 2—A fire of this kind is a real and deadly enemy to the forest. 3—The fire is a real and deadly enemy to the forest. 4—The fire is a real and deadly enemy to the forest.

Indifference, ignorance and carelessness,
are the malevolent forces which result
in forest fires and only a thorough
education of the public to the great
evil of forest preservation can eradicate
these evils. Until the general public
understands the full significance of the
loss occasioned through forest fires, un-
necessary destruction of thousands of
acres of fine timber will continue. The
damage to the financial health of Canada
through forest fires has not been fully
appreciated by the vast majority of the
people. And Canadians especially
should be vitally concerned in the wel-
fare of their forests.

The various phases of the lumber
industry in Canada represent an invested
capital of approximately five hundred
million dollars. The associated indus-
tries give employment to thousands of
men the year through. Further, out
of every five dollars the lumber indus-
try pays back to the country more than
four dollars for the wood, the labor and
the taxes involved in the enterprises.

In the province of Ontario alone,
about 2,000 men are employed in the
lumber industry. In the United States,
about 10,000 men are employed in the
lumber industry. The capital invested
in the lumber industry in Ontario is es-
timated at about \$175,000,000. The op-
erations employed by the Ontario
provincial government for forest fire
protection cost \$3,000 a day. Yet with
all this forest fire consumes twelve times
the amount of lumber which is the life
of these huge Canadian industries. In
the province of Quebec the value of the
lumber cut, including pulpwood, exceeds
\$40,000,000 annually.

In co-operation with the Associated
Advertising Clubs of the World, the
Montreal Publicity Association has
given generous leadership in drawing
public attention to the meaning of Forest
Conservation Week, which is held
annually in the United States and Canada
from April 19 to 25. Scores of public
bodies all over North America have
joined in the effort to stimulate public
interest in the forests and means for
their preservation.

When a forest burns everybody loses.
The destruction of a wooded area means
just so much less of a natural heritage
for the generations to come. During
Forest week the object is to impress this
important fact on the public.

The Canadian Pacific Railway has been
doing all in its power to prevent fires by
maintaining fire fighting apparatus of the
most up-to-date pattern. In order to eli-
minate the possibility of fires being started
by passing trains, locomotives on the
Canadian Pacific Railway lines are ex-
amined at the end of each trip at a great

care is taken to see that ash pans at
front ends are in perfect condition.
Each engine the right of way is cleared
with care of all scrap and inflammable
material.

Notices dealing with fire preven-
tion and protection, issued by the C.P.R.,
dominion and provincial governments
and by various fire prevention organi-
zations are posted in all stations and
buildings where they will be effective
and about one mile of line.

The fire-fighting forces maintained by
the Canadian Pacific Railway consist of
a number of tank car units and have
been kept ready for immediate operation
at convenient points. Each unit consists
of two tank cars each of 7,000 gal-
lons capacity, equipped with powerful pumps
and about one mile of hose.

Stony Plain and District.

Mrs. Ed. Summerfield left Monday for a visit with relatives near Ellerslie.

Geo. Campbell, Graminia, was a visitor in Stony on Monday.

A good crowd patronised the dance in Wude's Hall Saturday night at which the Barth orchestra played.

Mr Hy Schellenberger has just finished a successful well on the farm of Geo Scheideleman at Brightbank.

Following the printing of big scare heads in the City papers about the strike at the Wainwright fields, Stony is being given the once over by a group of oily oil-stock pedlars.

A concert will be given in Wude's Hall Friday May 21 by the students of Concordia College.

Thieves are operating again in town. A car left standing in front of the local bank had its spare tire and tube taken. Mrs Litke, on the Meridian road, lost half-a-dozen chickens Sunday night. A car had stopped near this house late at night, and the chickens were gone in the morning.

Mr. Ellis, from Saskatoon district, is the new tenant on the J. A. Barrie farm at Edmonton Beach.

Pete Baron, our enterprising farmer, last Tuesday finished cropping his 150-acre patch of wheat.

Mr J. Warner, an old resident of Stony Plain district, but who for the past three years has been farming at Holborn, will again take up his residence at Stony in the fall. Jim and family will occupy Jim's house near the

Otto Hoffman last week sold the NW 9 51 1w5 to C. W. Barth; and also sold the NE 30 52 28w4 to John Lutz. Mr Hoffman has several prospective buyers of farm lands.

Mr Kulak announces a dance to be held at Rosenthal Hall Monday May 24.

The Convention of Women's Institutes of Alberta will be held in Palliser Hotel, Calgary, May 26-27-28.

Members of Walther League with ambition and the histrionic gift are planning to produce a play at Wude's Hall some time in July. Practice has already begun.

Subscribers will greatly oblige by sending remittances by C.N. Express orders.

Fire at Speakman Beach

A running brush fire swept onto the Speakman sub-division on the west side of Cottage Lake, last week, and threatened the whole layout with destruction. A phone message was sent to Mr R. Speakman, at Stony, and he, with two carloads of volunteer firemen, hastened out to the scene. After some strenuous exertions, the fire fiend was finally overcome, but only after a cottage had fallen a victim. Mr Speakman wishes to thank in a very hearty manner all those who gave assistance at the time, as it was owing to their efforts the total destruction of the cottages at this summer resort were saved from the flames.

Sporting Notes.

The High School tennis club organised last week.

Footballers intend organizing for the season of '26, and a meeting is called for next Saturday evening at The Sun office of all those interested. A good attendance requested.

Sunday last was a poor day for baseball games. A game arranged for that day at Garden Valley did not materialize owing to the non attendance of the challenging team. A game at the local grounds, same day, was postponed for the same cause.

A very interesting game of ball was played the same afternoon at Golden Spike between Pete Trait's aggregation and a scruffy outfit, the former winning by a good margin.

A good practice game of football was held on local grounds the first of the week by members of Stony Club, with a good attendance of players.

Stony's baseballers will play Walther League on the 9th, in Stony.

Spruce Grove Notes.

Mr Wettharfer is calling for tenders to paint Peace Lutheran church at Spruce Grove.

The Loeblich outfit finished sawing lumber at Puder's, and have pulled for home.

Spruce Grove ball team will play Golden Spike on the latter's grounds the afternoon of the 9th.

Some complaint is heard about the delay in fixing the bad piece of road east of the Grove.

The funeral took place on Sunday last of the late John McKinlay, from the family residence south of town, to the old Pioneer graveyard on the Baseline. Services were held at the residence by the Rev. Mr Wood, and the remains were followed to the grave by a large number of friends and acquaintances.

8—Meeting of Stony Plain footballers.
12—Movie at Wude's Hall—"Stream of Life."
15—Clean-up Day in Stony.
21—Concert in Wude's Hall by students of Concordia College.
22—Meeting of Stony Plain U. F. A. Local.
24—Dance in Rosenthal Hall.
26—Women's Institutes Convention in Calgary.

New Liberal Leader.

Capt. J. T. Shaw M. C., for mer M. P. for West Calgary, is the new leader of the Liberal party in Alberta. He was elected unanimously by one of the most representative and largest political gatherings held in Alberta for years past. The name of the new leader was the only one to go before the convention held last week in Edmonton composed of members of the Assembly, presidents of provincial Liberal associations from every riding, prospective candidates, and other Liberal leaders who attended. On being introduced to the convention by Capt. Bowen, leader of the party in the Legislature, Mr Shaw was given a great ovation.

Fifth Annual Tour to the Pacific Coast.

Special Train Leaving Winnipeg, July 6, via Canadian National Railways, Entertainment Provided at Various Points of Interest en Route.

Personally Conducted.

Following the close of school for the summer holidays, the Canadian National Railways will again operate its popular "personally conducted" tour to the Pacific coast. This will be the fifth of such tours.

This mode of travel has many advantages. In the first place it is planned with a view to including in the itinerary the most interesting points, which, with the other arrangements that are made, obviates the necessity of the passenger worrying about connections, sleeping car accommodation, meals, and entertainment en route. This is all done in advance by experts leaving the passenger free to enjoy to the full the scenery and attractions all about him.

The tour this year will commence at Winnipeg, from which point a special train of modern sleeping car equipment, dining car and reading saloon, then on will leave July 6. After stopping at various points of interest, the train will arrive at Prince Rupert on July 10th. At this latter point the party will embark on a fabulous steamship for a cruise of 520 miles, through the famous "Inside Passage" to Vancouver. While the tour terminates at Vancouver, those who desire to make a trip to Victoria may have their tickets read "Victoria" as their destination without any additional cost.

The local agent of the Canadian National Railways will be pleased to give you full particulars of this tour.

MILK and CREAM.

We are now delivering Milk and Cream in Stony Plain every day from my herd of Tuberculin-tested Cows.

Chas. Schultz,
Phone 25 for our wagon to call.
